AHMED ZANATY

أحمد زناتي

Hello

AHMED ZANATY

Creative Art Director | Senior Graphic & 3D Designer | Exhibitions & Events Specialist

I'm Ahmed Zanaty, a multidisciplinary Creative Art Director and 3D Designer with over 15 years of professional experience across branding, exhibitions, events, and spatial experiences. Coming from Damietta, a city deeply rooted in craftsmanship and furniture design, I developed an early understanding of materials, details, proportions, and execution. Today, I combine that foundation with modern design technology to create visual experiences that are both creative and practical. Throughout more than 15 years in the creative industry, my experience has grown beyond modeling and rendering. I work across the full creative process — from brief development and concept creation to 3D visualization, technical detailing, production coordination, and on-site execution. I have contributed to large-scale projects in Saudi Arabia, creating exhibition booths, event environments, stages, brand experiences, and corporate visual solutions. For me, great design is not only about how it looks — it is about how it works, how it is built, and how people experience it.
